

Colombes – October 05, 2016

Chillventa 2016: Arkema to present its solutions to the F-Gas regulation challenges

Chillventa, a European trade show, which takes place every two year (Nuremberg, October 11 to 13) is one of the most important in the world of refrigeration, A/C, ventilation, and heat pumps. All the team members from the Fluorochemicals Business Unit will be in attendance to present Arkema's solutions for the future. Chillventa is a unique occasion to meet Arkema's experts at booth n°227 – Hall 9 – and attend our technical presentations.

The F-Gas regulation aims to reduce the emission of fluorinated greenhouse gases in the European Union. This reduction will be implemented through different mechanisms, including the ban of high-GWP products in some applications and a progressive phase-down of the quantities of gas sold to the market. Arkema actively supports this environmental transition and will present its solutions to the challenges of the F-Gas regulations during three presentations:

- October 11th at 12 pm – Hall 4A: **Arkema's Solutions for the Future**
- October 11th at 3 pm – Hall 4A: **High-efficiency, Low-GWP Options for Chillers**
- October 12th at 4 pm – Hall 7A: **The Drive to Lower GWP solutions in Commercial Refrigeration**

The Arkema Fluorochemicals Business Unit produces and commercializes a range of fluorinated gases globally under the brand name Forane® for the following markets:

- Refrigerants for cold production and air-conditioning, including commercial and industrial refrigeration, buildings, and automotive applications
- Blowing agents for polymer foams, in particular polyurethane and polystyrene foams
- Feed stock
- Degreasing, cleaning, and drying solvents
- Aerosols

For further information on Forane® products, visit our website : www.forane.com
For any commercial or technical request (or further information concerning the availability of our products in your country), please contact us at: info.forane@arkema.com

A designer of materials and innovative solutions, Arkema shapes materials and creates new uses that accelerate customer performance. Our balanced business portfolio spans high-performance materials, industrial specialties and coating solutions. Our globally recognized brands are ranked among the leaders in the markets we serve. Reporting annual sales of €7.7 billion in 2015, we employ approximately 19,000 people worldwide and operate in close to 50 countries. We are committed to active engagement with all our stakeholders. Our research centers in North America, France and Asia concentrate on advances in bio-based products, new energies, water management, electronic solutions, lightweight materials and design, home efficiency and insulation. www.arkema.com
