

Colombes – November, 03, 2016

Sartomer is launching a new generation of solutions for 3D printing

Committed to drive the technology forward, Sartomer will present NextDimension™, its new range of solutions for UV curable additive manufacturing, at the upcoming Formnext show in Frankfurt, November 15th to 18th 2016, Arkema booth #B19 (Hall 3.1).

Sartomer, a subsidiary of Arkema Group, is a premier global supplier of specialty acrylates and methacrylates for high performance energy cured systems. It is also the pioneer in the design of material systems for UV curable 3D printing.

Additive manufacturing offers a wide range of possibilities for products and designs. This untapped potential is often limited by material choice and performance. Sartomer is taking its range of specialty monomers and oligomers for 3D printing manufacturing processes to the next level through the introduction of performance orientated solutions, marketed under the new brand **NextDimension™**.

N3XTDIMENSION™

BY ARKEMA

The introductory offer consists of two tailored grades that have been developed to allow the end-user to meet and exceed performance levels of current market standards. One grade has been designed to enable high print quality prototyping whilst the other provides improved mechanical performance for high-end industrial applications. The user will be free to add the appropriate photoinitiators and complementary Sartomer high performance photocurable resins in order to meet specific requirements for individual printers.

Come and discover Sartomer's new offer, meet our experts, at the upcoming Formnext show, November 15th to 18th 2016 in Frankfurt, GERMANY (Arkema booth#B19, Hall 3.1).

More about Sartomer

Sartomer is a premier global supplier of specialty chemicals for ultraviolet and electron beam (UV/EB), peroxide, and two-part epoxy/amine systems. For more than 55 years, Sartomer has pioneered the development of these advanced technologies, introducing hundreds of products that enhance performance in coatings, graphic arts, adhesives, advanced materials and other demanding applications. www.sartomer.com.

*A designer of materials and innovative solutions, **Arkema** shapes materials and creates new uses that accelerate customer performance. Our balanced business portfolio spans high-performance materials, industrial specialties and coating solutions. Our globally recognized brands are ranked among the leaders in the markets we serve. Reporting annual sales of €7.7 billion in 2015, we employ approximately 19,000 people worldwide and operate in close to 50 countries. We are committed to active engagement with all our stakeholders. Our research centers in North America, France and Asia concentrate on advances in bio-based products, new energies, water management, electronic solutions, lightweight materials and design. www.arkema.com*
