Odor-Tech appoints Tri-Pacific as its exclusive sales representative for the Western U.S.

Odor-Tech LLC, a U.S. subsidiary of Arkema Inc. and a world leader in gas odorant manufacturing and supply, has appointed Tri-Pacific Inc., a California-based natural gas industry manufacturer's representative, as its exclusive sales representative in California, Oregon, Washington, Arizona, and Nevada, starting July 1, 2016.

Odor-Tech will use Tri-Pacific's local presence and expertise to more effectively market Arkema's Spotleak® natural gas odorants to better address the gas odorant needs of the Natural Gas Transmission firms and Local Distributions Companies (LDCs). Tri-Pacific also will represent Odor-Tech's ethyl mercaptan odorant (manufactured by Arkema Inc.) to local propane manufacturers and promote Odor-Tech's range of odor control O-Scent solutions.

Founded in 1989, Tri-Pacific has grown to be a leading supplier of quality products to the natural gas market. Tri-Pacific provides high quality professional services, representing an impressive list of manufacturers who offer products for both natural gas transmission and distribution firms. Odor-Tech has the largest and most versatile delivery fleet servicing the North American odorant marketplace, including cylinders, mini-bulk bobtail trucks, and bulk tank trailers. Odor-Tech also offers odor control solutions to better assist both natural gas and LPG producers and distributors.

"We want to increase our proximity to our customers in the Western part of the U.S.," said Olivier Griperay, Odor-Tech Market Manager at Arkema Inc. "Having Tri-Pacific as a sales representative for odorants and odor control solutions in this area will enhance our technical support, a major benefit to our customers."
